Services Offered by Huguley Mobile Bus

Well Child and Adult Physicals	Hepatitis A & B immunizations
Sick Child and Adult Physicals	Lab work
Blood pressure screening	Pap Smears
Childhood/adult immunizations	STD Screening
Cholesterol screening	Colorectal Cancer Screening
Diabetes checks	Vision screening
Electrocardiogram (EKG) Testing	Tetanus and Meningitis vaccines
Flu and Whooping Cough shots	Limited TB Testing

Osteoporosis Screening: Based on an individual's risk factors for osteoporosis our Mobile Unit staff can determine whether an individual should be screened using our Apollo DXA which utilizes advanced Peripheral DXA technology. It's a low-cost, non-invasive, and painless procedure that takes less than 30 seconds to perform. The densitometer measures bone mineral density (BMD) at the heel.

Cholesterol Screening: Low-cost cholesterol screenings are available at each of our Mobile Unit locations. Screening tests include: Total Cholesterol, LDL, HDL: Total Cholesterol ratio, VLDL, and Triglycerides. Testing requires a 12 hour fast. Black coffee or water only during fast.

Health Fairs: Texas Health Huguley's Mobile Health Services participates in some of Tarrant and Johnson counties largest health fairs. The health fairs involve many medical providers and services; the mobile unit can provide EKG's, spinal screening, vision, hearing, blood pressure, skin cancer screenings, prostate exams, breast exams, cholesterol, height or weight and low-cost screenings for osteoporosis, cholesterol and diabetes. Education is also a large aspect of each and everything the mobile unit participates in.

First Aid Station: For a low fee the mobile unit is available to provide first aid to local events. The unit has provided services for the Main Street Arts Fest, Camp Aurora (juvenile diabetes camp with Cook Children's hospital and the American Diabetes Association), Day Camp with the American Red Cross, October Fest and Pioneer Days in Fort Worth, Good Life Days and the Pony League girls fast and slow pitch softball tournament in Burleson, Willie Nelson's Fourth of July picnic and Operation Graduation in Crowley.

Flu & Pneumonia Shots: Texas Health Huguley provides low cost flu and pneumonia shots each year during October and November. Last year the unit gave over 2,000 immunizations against flu and pneumonia. Check back on our online calendar in Mid-October to see where we will be giving shots.

Immunizations: The Mobile Unit gives childhood immunizations through the Vaccine for Children initiative and the Fort Worth Public Health Department to children ages 0 to 18. Immunizations are given at health fairs, monthly community location sites and local schools or almost anytime the mobile unit is available.
